Century's Hardboard Coatings were formulated to coat hardboard and medium density fiberboard (MDF) substrates. They were designed for application using a number of different methods, including curtain coaters, direct or reverse roll coaters, and spray or mist coaters. These formulations allow the customer to cure with flexibility and very little change in line settings. They were formulated with the following properties:

- HAPS Free
- Low VOC (excluding 50 Series)
- Excellent Application Properties
- Excellent Block & Print Resistance
- Excellent Mar & Slip Properties
- 100% Solids, Zero VOC (500 & 550 Series)

### 5 Series

Water-based Fillers  
Water-based Sealers

### 50 Series

Solvent-based Topcoats

### 200 Series

Water-based Topcoats

### 500 Series

UV Curable Topcoats

### 550 Series

UV Curable Fillers
